

WOLF PUP

WOLF PUP

WHEN THE OPEN ROAD BECKONS AND
THE WANDERLUST STIRS, WOLF PUP,
BY FOREST RIVER, WILL HELP YOU
ANSWER THE CALL.

Wolf Pup travel trailers are built to give you better comfort, style and value, so you can enjoy your travels to the fullest. With a diverse set of floorplans, Wolf Pup is here to meet all of our customer's camping needs.

SHOWN IN NATURAL

16BHS

The 16BHS with sleeping for 5, gives great livability and functionality in a small package. This short, light weight floorplan is perfect for the first time customer that is looking for a RV that is easy to manage and not too overwhelming while traveling down the road. With plenty of storage and features the 16BHS is perfect for the family.

**SHOWN IN NATURAL****16FQ**

For the couple that loves traveling the 16FQ is the floorplan that has it all. Packed into a short, light weight trailer this floorplan is packed with residential features. From stainless steel microwave and range cover to its high arc faucet and large sink this kitchen has all the great features of home.

SHOWN IN NATURAL

18TO

The 18TO with a Chef's Kitchen as seen here allows for preparation and visitation all at the same time. It features an interior rock wall for entertainment use, a super slide-out and large windows to enjoy all your surroundings. This floorplan with its super slide-out gives ample storage and an amazing amount of livability in a single axle RV.

Specification Definitions

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water

(8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
