The actual height of our vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Floorplans feature a widebody design - over 68-inches. In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 56-inches in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (AWC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
