# #LETSJAYCO

When you travel with Jayco, fun is the only thing on the agenda. That's because we go the extra mile so you can live in the moment. From comfortable, amenity-packed floorplans to weather-shielding insulation and superior frame construction, you'll have everything you need to adventure every day and make yourself at home every night. Let's get away. Let's make it count. Let's Jayco—and make memories that last a lifetime.

## GENERATIONS OF FAMILY FUN

# WHITE HAWK

## BROADEN YOUR HORIZONS

Enjoy twice the expandable space—and the peace of mind—that comes with the industry's sturdiest slideouts. The White Hawk features impressive 36-inch-wide, ram-style slideouts with vacuum-bonded walls, double-bulb seals and a U-channel drip spout over all openings.

\* The weights of certain options and/or option packages are not included in the UVWV listed in the specifications chart.

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

WE START WITH ONE OF THE INDUSTRY'S  
**strongest**  
**foundations**

Many competitors modify or weld stock frames, which can weaken the integrity of your foundation. Jayco's custom-manufactured frames offer higher strength and durability.

**Full-width outriggers:** We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 feet) to better support the weight of the wall.

**Norco® NextGen frame:** White Hawk features the industry's best strength-to-weight ratio thanks to a Norco NextGen frame made of high-strength, low-alloy sheet steel, Huck® bolts and an interlocking design.

**Integrated A-frame:** The A-frame runs through the main frame, preventing the hitch from buckling—a common issue in competing tack-welded designs.

# LET'S JAYCO—AND LEAVE OUR WORRIES BEHIND.

We know that your family fun rides on our commitment to quality. So we go the extra mile to make products that last—and stand behind them longer than anyone in the business.

## THE JAYCO DIFFERENCE

When you go with Jayco, you get one of the industry's strongest frames and rock-solid construction.

- 1. Walls are vacuum-bonded** for 15-18 minutes using 144 tons of pressure to ensure a strong bond
- 2. Seamless DiamondFlor vinyl**, laid over a  $\frac{5}{8}$ -inch tongue-and-groove plywood floor deck, stands up to family foot traffic and withstands cold, cracks and scratches
- 3. Lightweight materials and aerodynamic profile** for easier towing

**4. Extra-wide corner seals** on doors and windows to prevent leaks

**5. Magnum Truss™ Roof System** withstands 4,500 pounds—50 percent more than other roofs

**6.  $\frac{3}{8}$ -inch roof decking** secured at every seam

**7. One-piece, sidewall-wrapped DiFlex II** material provides the ultimate in leak protection

Generations of family fun.
